SWISS HERITAGE

Since 1911

Switzerland, a beautiful country with spectacular natural landscapes and a rich history, is famous for its manufacturing excellence with uncompromising quality and design.

That's where our story began.

After pursuing detail, perfection and high quality for over a century, we stand for reliable, premium products and have a strong reputation as a dependable partner.

As a traditional Swiss brand with more than **100 years** of history, we have expanded our business across **5** continents and own **72** branches spanning **40** countries.

There are over 100 million households using Franke products today.

OUR STORY

TODAY

Franke Group consists of three core business divisions: Franke Home Solutions, Franke Foodservice Systems and Franke Coffee Systems; Franke Home Solutions has become one of the world's leading providers of integrated kitchen systems.

1911

Herman Franke establishes a sheet-metal business in Rorschach, Switzerland. In the early 1930s, he manufactures the first sink unit in nickeline, monel and later, in stainless steel. Soon, series production starts and Franke launches the first fully welded, flush-mounted sink.

1946

Walter Franke draws up a model for the standardization of the private kitchen, which set kitchen technology standards still used today. They successfully export to neighboring countries, and in the following years, further expand all throughout Europe. The business also grows from private to commercial kitchens, coffee machines, and semi-public washrooms.

1978

With the purchase of Progressive Corporation in Philadelphia USA, Franke takes the first big step towards becoming a global company. During the next few years, the company also successfully continues to increase its footprint in the African markets.

1995

Franke enters the PRC market – an important step in expanding business in Asia.

Since then, Franke has established efficient and economic manufacturing facilities all over the world, successfully building the company into today's global Franke Group.

2005

Franke takes over the Faber Group of Italy, one of the top hood manufacturers in the world. This significantly strengthens their capability of being an integrated kitchen system provider.

2011

Celebrating over 100 years of excellent products and design, Franke has been the pioneer in exceptional home solutions, foodservice systems and coffee systems. Staying true to its Swiss heritage and bringing out the best in quality, design and functionality, Franke strives to create innovative and elegant integrated kitchen solutions for every customer.

2021

In July 2020, the Franke Group announces the merger of the Faber Hoods & Cooking Systems and Franke Kitchen Systems divisions. As of January 1, 2021, the new division operates under the name of Franke Home Solutions.

The Franke Group is thereby pooling its expertise in the areas of food preparation and cooking for the residential kitchen. The vision is to be present in each and every household with a Franke anchor product.

INNOVATION IS IN OUR DNA

We have always been passionate innovators since our beginnings.

SINKS

Overview

Kitchen Sinks That Feel Tailor-Made

Everyone has a different vision of what would make their kitchen wonderful, and that often begins with how they intend to use it. The demands on your sink will dictate which material is right for your kitchen, as each precision-engineered material has individual character and unique benefits.

Our range covers everything, from the new trends to traditional favourites. All you have to do is pick the one that best complements your cooking style, your lifestyle and your personal style.

Fragranite

Superbly hard-wearing, sinks made of granite are particularly elegant and bring a natural look into your kitchen.

Our processed granite has a subtle shine and feels warm to the touch. The surface is finely textured but not porous, ensuring a high standard of hygiene. Composed of 80% quartz sand and 20% very hard acrylic resin, Franke's hard-wearing granite gives you a lifetime of beauty.

Stainless Steel

Franke stainless steel sinks are made from premium quality 304 stainless chrome nickel steel. Stunningly beautiful, highly resistant to stains, rust and corrosion – plus, it won't chip, craze, flake or break.

Franke offers sinks in a selection of stainless steel finishes, so whether you prefer the more reflective qualities of a polished finish or the subtle matt sheen of a silk or brushed finish, there's a stainless steel solution for you.

HIGHLIGHTS

Details that make the difference

Small details such as minute material processes, its forming history, or a innovative “fast-in” installation system make a huge difference in the finished product.

Whether it's to save you time, make cleaning easier, boost performance or simply provide an efficient solution for life's little challenges, every aspect of a Franke sink is carefully designed to make life more seamless.

Choosing Your Perfect Sink

There are a number of considerations to take into account when choosing a sink. Not only how it'll accentuate the overall look and feel of your kitchen, but also how well its installation and functionality work for your lifestyle.

1. Material Options

- **STAINLESS STEEL**
- **FRAGRANITE**

2. Installation Type*

- **INSET**
- **FLUSHMOUNT**
- **UNDERMOUNT**

3. Number of Bowls

• **SINGLE BOWL**

Single bowl sinks come in a variety of sizes, ideal for limited space or large spaces.

• **DOUBLE BOWL**

Double bowl sinks offer great flexibility in the kitchen, providing more space, with additional options.

4. Cabinet Size

The length and depth of the cabinet, on top of which the sink will be located, are the factors that determine the maximum size of an installed sink.

5. Bowl Depth

A deeper bowl can make it easier to handle large pots and cookware, but the user's height should also be considered.

A shallower bowl may provide greater comfort while working in and reaching the bottom of the sink.

Installation Type*

 **INSET** the most popular installation option: practical and easy.

 **FLUSHMOUNT** a sophisticated design that enhances the look of the worktop.

 **UNDERMOUNT** an original, refined installation choice that allows bowls and sinks to be installed underneath marble or synthetic worktops, creating a surface with immaculate lines which is highly functional, elegant and easy to maintain.

Heart of the home

A sink that really works. A workspace that really entertains.

Box Center

The Box Center integrates essential kitchen accessories right into the sink unit so they're easily accessible all the time – our new double bowls are a perfect example of this. In the Box Center, sinks and accessories belong together. During the day, the elegant accessories are integrated into the main bowl, so everything is ready when you are. Overnight, the accessories are safely stored in the compartment bowl, where they dry.

Includes a wire rack to hold the accessories, which include: 3 knives and knife holder, chopping boards (1 wood, 1 plastic sanitized), 1 colander, a draining rack, and pop-up waste, flush cover.

Chef Center

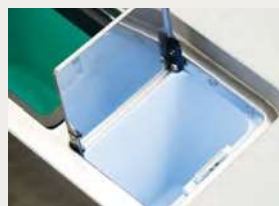

The Chef Center is an entirely new concept that transforms the sink into the heart of the kitchen, and the kitchen into the heart of the home. Thoughtfully designed and engineered in Switzerland, the Chef Center enhances entertaining, maximizes creativity, and simplifies cleanup – a complete kitchen solution with every accessory integrated. It gives you the power of a beautifully designed sink system. Every accessory is included and right at hand:

- Removable Glass Cutting Board

- Antimicrobial Compost Bin

- Storage Bin

- Strainer Bowl

- Stainless Steel Drain Board

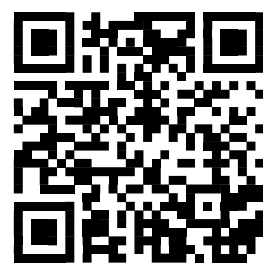

- Multi-level Sink Grid

- Roller Mat

STAINLESS STEEL SINK

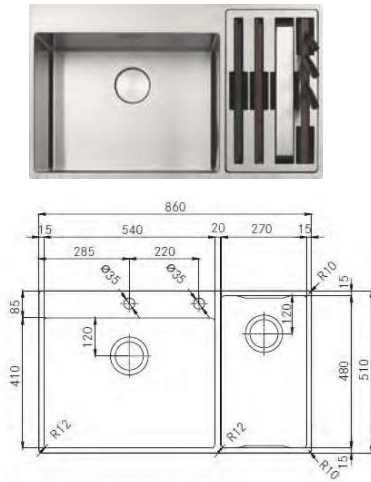

Franke offers a selection of stainless steel finishes made from 304 stainless chrome nickel steel. So, whether you prefer the more reflective qualities of a polished finish, or the subtle matt sheen of a silk or brushed finish, there's a stainless steel solution for you.

FRAGRANITE SINK

Durable and versatile, Fraganite offers a host of practical and aesthetic benefits. The surface's rich colour won't stain, mark or fade over time. Plus, having been heated up to 280°C, the material superbly hard-wearing, making it impact and scratch resistant – perfect for busy family homes. What's more, our Fraganite's Sanitized® coating reduces bacteria and microbe growth by 99%, helping keep your sink hygienic and clean.

The silver ion locates the bacteria via the moisture and deactivates it.

ACCESSORIES

A seamless supplement to your sink

Turn your sink into a multi-functional work station with the addition of clever accessories that combine function and technology. From items that aid a hygienic kitchen, to those that make preparation a joy, you'll find accessories that surprise and delight, such as the lightboard that fits exactly over the bowl of the sink and acts as an ambient cover.

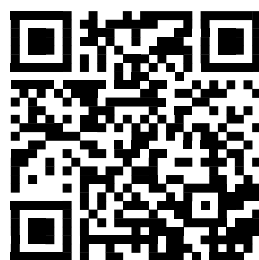

THE BEST-SELLING ROLLER MAT

A Franke classic that's not only useful and versatile, but also adds an elegant look to your sink.

THE NEAT STRAINER BOWL

A beautiful strainer bowl that simply fits. The anti-scratch frame glides perfectly on the edge of the sink: move it to where you need it.

WOODEN CHOPPING BOARD

Our Chopping Board fits your sink perfectly, sitting securely over the bowl. Allowing you to maximise workspace and transform your sink into a multi-purpose workstation.

WIRE BASKET

The Wire Basket is indispensable to hygienically dry your crockery and utensils. Designed to sit firmly on your drainer to balance your dishes firmly and securely so you air dry with confidence.

TAPS

Overview

Taps Worth Talking About

The perfect kitchen tap combines form and function, making your life easier and your kitchen more beautiful. Franke taps are a superior choice, renowned for design, quality components, and rigorous manufacturing processes. With the acquisition of Switzerland, Franke has gained a strong partner and increased expertise in high-end tap manufacturing and design.

HIGHLIGHTS

Kitchen taps designed to the finest standards

Explore endless shape, line and contour possibilities to make an ordinary kitchen something special. The Franke tap range provides your kitchen with a focal point – and in some cases, a talking point. Featuring cutting edge design and a whole host of innovative features to enhance your lifestyle – from filtered cold water, to instant boiling water – the range spans the entire spectrum of form and function.

Design

Franke's line of kitchen taps perfectly captures all the elements of today's design choices – traditional, transitional, and contemporary. With everything from top flight European models with a sleek minimalist line, to classic models that are the centerpiece to any kitchen, the addition of a Franke tap can reinvigorate an existing kitchen or make a statement all its own in a fresh design.

Manufacturing

Outstanding design and quality components come together beautifully in the our manufacturing process. Strict adherence to Franke manufacturing standards in forming, finishing and final assembly achieve the exceptional quality and durability that makes a Franke tap one of the most desired additions to a kitchen.

Hygiene

Superior materials with corrosion resistant and easy-cleaning features guarantee that no harmful materials enter the taps' flow of water.

Durability

Scratch and acid resistant features of high quality SUS304 stainless steel ensures our tap have a much longer lifecycle.

Functionality

Ceramic cartridges provide uniform temperature and water flow transmissions, as well as superior water-saving capabilities.

Design Award

Thanks to its outstanding quality and cutting-edge design, the Franke Pescara range of taps has received the 2017 iF Gold Award and the Red Dot design award.

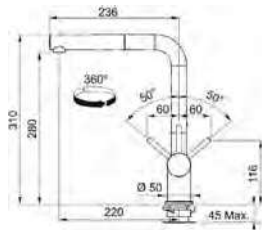

BRASS TAP

Brass is one of the most common materials in tap making, found all around the world. Its material characteristics make it possible to create a wide range of tap shapes and styles, and chrome finishing provides a shiny look perfect for contemporary kitchen styles.

FILTRATION

Overview

Clean and Healthy Water on Demand

Whether it's a cool refreshing glass of water in the garden, washing salad and vegetables or brewing the perfect cup of coffee, our water filters improve the look, taste and odour of your water by filtering out unwanted contaminants.

instantFil Counter-Top Drinking Water Filter System

Discover the quick and convenient solution to enjoy fresh, clean water for all of the family. Franke instantfil counter-top water filters connect to the existing tap and sit next to the sink, meaning the system will fit perfectly in any kitchen without the need for permanent installation.

Franke instantfil counter-top water filtration systems take out more than 99.99% of common water contaminants, providing healthy, tasty water with no extra effort required.

Still Pure Under Counter Drinking Water Filter System

Originally designed to be fitted to the mains cold water pipe underneath the kitchen counter, these filter systems have proved very popular within the water cooler industry, due to the ease with which they can be incorporated into cooler plumbing.

FOOD WASTE DISPOSER

Overview

More Choice, More Space

A food waste disposer unit can be a wonderful, long-lasting addition to any kitchen if proper care is taken.

Food waste disposer units are designed to deal with small amounts of organic waste: fruit and vegetable peels, small bones from fish and chicken, coffee grounds, pips and seeds, nutshells, eggshells, rice and leftover meat. To prevent any problems, avoid putting teabags, seafood shells, corn cobs, banana skins, pineapple leaves or metal, glass, plastic and paper down the unit. Plus, to keep things smelling clean and fresh, don't use drain cleaner – instead, squirt a few drops of lemon juice.

HIGHLIGHTS

A greener, simpler and quieter choice

Less is More

Quickly shred and pulp food waste material into small pieces that are then flushed down the drain at a 2700RPM motor speed. This process releases water trapped inside the food material (which can form up to 85% of its bulk), thereby helping to reduce the volume of food waste released from your home.

Health and Hygiene

Food waste in the kitchen is not only messy and inconvenient, but can also lead to hygiene problems. Fish, meat and dairy products can spoil quickly, resulting in a plethora of germs and insects – particularly in a warm environment. A Turbo Elite series food waste disposer is the simple, convenient and hygienic answer.

Safety Comes First

Equipped with complete features and systems for safe use, our Turbo Elite series food waste disposer ensures full functionality for a less wasteful home without any worry over safety or accidents.

2,600 - 2,800RPM

Torque Talk

- **Permanent magnet motor**

Clocking in at 2,600-2,800RPM, the high speed and torque (twisting power) produced by the permanent magnet motor of the Turbo Elite series food waste disposer is almost twice as fast as standard induction motor units (1,400RPM), eliminating any potential jams.

- **Torque master grinding system**

Utilizing balanced turntables, armatures, and corrosion-proof components, this system provides a quieter operation, less vibration, a longer lifetime, and faster grinding of food waste – which means less time spent at the sink.

Magnetic Magic

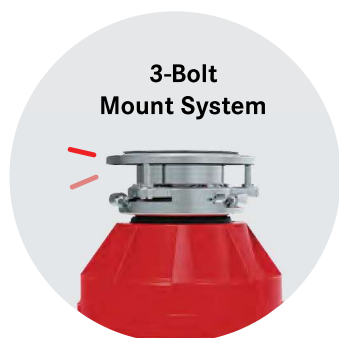

- **Energy saving**

Requiring less electricity than induction motors, Franke's permanent magnet motor also saves on water thanks to its faster grinding speed.

- **Less is more**

The permanent magnet motor maintains the same power output as an induction motor, while its smaller footprint saves space under the sink and makes for easier installation.

Permanent Magnet Motor

3-Bolt Mount System

Here to Stay

- **3-bolt mount system**

Cut down the time needed to get your Turbo Elite series food waste disposer up and running with Franke's new 3-bolt mount system. Requiring only a screwdriver, the system makes for fast, easy and economical installation.

- **Corrosion resistance**

By utilizing superior polyamide for hoppers, a synthetic polymer for drain housings, and stainless steel grinding components for all models, our food waste disposers are uniquely protected against the risk of corrosion, allowing for a longer service life.

Clean Slate

- **Bio Shield**

Franke's food waste disposers feature Bio Shield anti-microbial agents permanently molded into their internal "wet" components to guard against odor-causing bacteria growth.

- **Removeable splashguards**

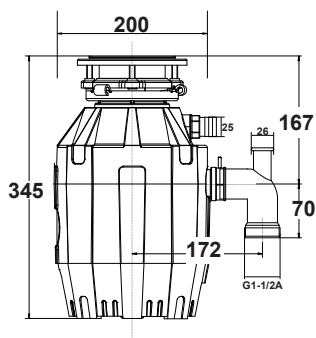

The Turbo Elite food waste disposer's removeable splashguards make it easy to clean or replace – a feature often lacking in other brands. The splashguard is also easily removable, allowing for quick disposal of large batches of food waste.

SORTER

Overview

Kitchen Solutions

Franke's innovations goes beyond that of sinks and taps. We strive to make life easier with a range of convenient and practical solutions for every aspect of your kitchen. From dealing with unsightly household waste in a hygienic manner to effortlessly sorting waste for recycling, our sorters are designed to help you save time and maintain a clean, uncluttered kitchen by incorporating these waste management essentials discreetly into kitchen units.

Waste Sorters

Fitting neatly into standard cabinet units, Franke's Waste Sorters features separate containers, to sort domestic waste into categories such as food, cans, plastic and paper, and a lid which covers the bins and contains any odours. Franke's Waste Sorters are a convenient alternative to the conventional waste bin.

Standard Door Systems

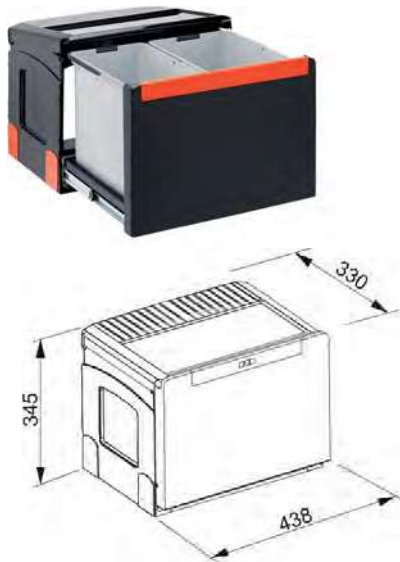

The Franke 300 Series Sorter Systems are a functional addition to any kitchen with standard cabinet doors, fitting neatly into 450mm and 600mm kitchen base units. Each bin has a handle to secure dustbin bags. The roll-out carrier is fully waterproof, hassle-free to dismantle and easy to clean.

CLEAN & CARE

Overview

General maintenance is wonderfully simple

Increase the lifespan of your Franke products and prevent the buildup of dirt and limescale by simply wiping down your sink and all stainless steel surfaces with a damp cloth and soapy water. This simple tip will keep your products looking great. Discover more top cleaning tips below.

NEW Colored Sink Cleaner (250ml)

Cleaning a colored mineral cast sink is like washing a car. In order to keep it clean you have to make sure the water drops roll off the surface without leaving lime scale deposits. This is exactly what the specialised Franke Kitchen Care Colored Sink Cleaner does. It removes dirt deposits and protects your sink effectively from water stains.

 **ITALY**

Model Colored Sink Cleaner
Fun No. 112.0530.238
Suggested Retail Price **\$200**

NEW Stainless Steel Sink Cleaner (200ml)

Commercial detergents often affect stainless steel. After a while, the sink becomes dull and the glaze is damaged. The new Franke Kitchen Care Stainless Steel Sink Cleaner instead is acid-free and includes polishing compounds which ensure sustainable and gentle cleaning. Applied regularly with the Franke Kitchen Care Microfiber Care Cloth, it ensures your sink will always look as good as new.

Model Stainless Steel Sink Cleaner
Fun No. 112.0530.237
Suggested Retail Price **\$200**

 ITALY

NEW Tap Cleaner (250ml)

When looking at a shiny tap, one tends to forget all the technology and mechanics tucked inside. There are valves, cartridges, seals, and filters that might get harmed if you use an aggressive cleaner. The Franke Kitchen Care Tap Cleaner removes all lime scale and dirt gently but thoroughly, thus preserving the beauty and performance of your tap for years.

Model Tap Cleaner
Fun No. 112.0530.239
Suggested Retail Price \$200

 ITALY

NEW Microfiber Care Cloth

The best toothpaste is even more effective when applied with the best toothbrush. The same goes for the Franke Kitchen Care detergents. When combined with the Franke Kitchen Care Microfiber Care Cloth, each of them is more effective and more protective than with any other cloth or sponge. Thanks to its unique structure, the fibre used in it absorbs even the smallest dirt particles while smoothly polishing the surface. Washable at up to 60°C and suitable for tumble drying, the cloth can be used over and over again to keep your kitchen clean and shiny.

Model Microfiber Care Cloth
Fun No. 112.0530.324
Suggested Retail Price \$150

WARRANTY TERMS

The warranty for manufacturing defects on this FRANKE device is 1 year from the date of purchase (Faucet cartridge is 5 years from the date of purchase). The customer must inform FRANKE about all faults within 2 months of determination. FRANKE must always be provided with the proof of purchase stating the vendor/retailer, purchase date and product identification number.

The manufacturer's warranty is only granted under the following conditions:

- The device is only used in a private household.
- The device was connected as per the manufacturer's instructions and all essential energy regulations were complied with when connecting as per the supplied operating instructions.
- The device is only used in line with the instructions in the operating instructions.
- All repairs are implemented by an authorised FRANKE customer service centre and FRANKE spare parts were used.
- The model or serial number on the product was not changed, deleted, removed or otherwise made illegible.

During the warranty period FRANKE will either repair or replace defective parts for the customer free of charge.

FRANKE has the right to replace the defective device with one of the same value if defects occur repeatedly or if the repair costs bear no relationship to the value of the goods.

There is no right to repairing or replacing the device beyond the warranty period of 1 year.

EXCLUSION CLAUSES

This FRANKE warranty does not cover repair or spare part costs arising for the following reasons:

- The operating or maintenance instructions from the manual provided were not met.
- The device was operated in a negligent or grossly negligent manner.
- The maintenance or repair was undertaken by an unauthorised person or the customer and/or no original spare parts were used.
- Due to transport damage or damage arising from force majeure

* The above warranty terms only apply to Hong Kong and Macau.

and/or events that cannot be specified as manufacturing defects on the device.

- Parts that can be removed, handles, light bulbs, enamel or glass parts, external tubes and all components and wear parts are not covered by this warranty unless it can be proven that they have manufacturing defects.
- Damage to the product caused by the installer and operating faults caused by incorrect installation.
- Defects on the systems and fittings with which the device was linked. This is why the customer has to provide full payment for any service call and spare parts if requesting an authorised employee from the customer service centre in these cases.

EXTENT OF AREA

This warranty is guaranteed by FRANKE in the area of the stated country by the customer service network.

Devices sold or used in other countries are covered by the warranty of the FRANKE Group company in the respective country.

MANUFACTURER'S LIABILITY RESTRICTIONS

FRANKE does not accept any liability whatsoever for damage to people, property or animals created directly or indirectly as a result of not complying with the instructions in the operating manual, in particular with regard to the installation, operation and maintenance of the device.

EXPIRY OF THE WARRANTY

After the end of the 1 year warranty period, all service calls to customer services for a repair or replacement of components must be paid for in full by the customer, as per the price lists of the authorised FRANKE customer service. In the event that a defective product is repaired or replaced, the warranty applies to the repaired or new product only for the same time as the original warranty on the product.

If you want to contact FRANKE for a service call, please provide the purchase receipt and the following information:

- Model / serial / product no.

You will find this information on the device's nameplate.

- Date of purchase
